# Selfie stick with remote control Telesin TE-RCSS-001

Create perfect selfies and record even more interesting footage. The selfie stick by Telesin is compatible with most popular sports cameras and has a maximum length of up to 600mm. It also works well as a tripod. The set also includes a small remote control, which allows you to remotely operate the camera from a distance of up to 72m.

# Convenient length adjustment

The selfie stick is designed in such a way that it can meet the diverse needs of users. It allows you to adjust its length in several steps up to 600mm. Now you can easily capture the entire breathtaking landscape or take the perfect group selfie! You can also easily turn the accessory into a practical tripod to record steady shots or prepare a YouTube tutorial.

## Practical remote control included

Enjoy almost unlimited freedom when you're recording or taking photos. Included in the kit, you'll find a small Bluetooth remote that you can use to remotely control your smartphone camera or camcorder. It has a maximum range of 72m and its magnetic design means you can easily attach or remove it from your selfie stick. Now all it takes is one click to start recording or take a picture!

You can easily mount your sports camera or smartphone on the selfie stick. The accessory is equipped with a phone holder and is compatible with many different models of devices - for example, the GoPro 11, 10, 9, 8 and MAX. No matter what equipment you use - now you can easily get the results you dream of!

### You can always have it with you

Lightweight and foldable design make the Telesin selfie stick able to accompany you almost anywhere. When folded, the length of the accessory is only 173mm - you can easily fit it in your backpack or handbag! Take it on your next trip or party and be sure not to miss the opportunity to take a fantastic shot.

#### Solid

The accessory is made of excellent quality materials that ensure its strength and wear resistance. The aluminum alloy rod is extremely durable and fits perfectly in your hand - it will not slip out of it. Specially designed tripod legs guarantee its stability, and placed on them non-slip pads make it will not move on the desk, table or floor.
