Ref: 5906168436581

2-in-1 xTool S1 40W Laser Engraver - All-in-One Kit (White)

The xTool S1 40W laser engraving machine is an advanced device that provides unparalleled precision and versatility. With four interchangeable laser modules, the device can be customized for a variety of working scenarios, making it the ideal tool for beginners and advanced users alike. The 498 x 319 mm workspace allows for even the most demanding projects. The All-in-One is a powerful kit in which you get everything you need to work safely and efficiently at a professional level.

xTool Smoke Purifier

The xTool Smoke Purifier is a highly efficient device that provides clean air in any work environment. Thanks to its advanced three-layer filter technology, the purifier removes 99.97% of harmful particles and unpleasant odors, ensuring safety and comfort. Its mobility and low noise level make it ideal for both home and professional use.

xTool Air Assist 2.0 Auto

Air Assist 2.0 Auto is an indispensable laser engraving support device. It automatically adjusts the airflow according to the current working conditions, which helps stabilize the laser energy and protect the lens from debris. The constant airflow of 30L/min effectively removes smoke and fumes, preventing burns and providing cleaner material surfaces and better cutting quality.

xTool S1 Riser Base

The Class I Riser Base allows the machine to be elevated, greatly expanding the working space. With this base, you can work with different material thicknesses and easily adjust the height of the base plate. The Riser Base also provides an enclosed workspace, preventing light and smoke leakage, which increases safety and comfort.

RA2 Pro Rotary Attachment

The xTool RA2 Pro Rotary Attachment is a versatile and precise 4-in-1 tool that is an invaluable addition to engraving machines. Configurable in four different settings, the RA2 Pro is ideal for engraving items of all shapes and sizes. High-speed vector engraving and precise stepper motor control ensure incredible accuracy, and ease of use means the module is ready to go right out of the box.

Automatic fire extinguishing system

The xTool Fire Safety Set for S1 is a mini fire safety system that automatically detects and extinguishes a fire. This is an extremely important safety feature that makes working with a laser engraver safer, minimizing the risk of damage and accidents. This allows you to focus on your projects, confident that you are protected from potential hazards.

Included

- 2-in-1 xTool S1 40W laser engraving machine
- Honeycomb panel for cutting out
- Smart Air Assist worth PLN 679
- xTool Select material set
- Automatyczny system gaśniczy xTool Fire Safety Set dla S1 o wartości 679 zł
- Turntable stand RA2 Pro
- Podstawa xTool S1 Riser Base
- Pochłaniacz dymu xTool Smoke Purifier
