

Chest strap Telesin with mount for sports cameras (GP-CGP-T0)

Ref: 6972860176277

Chest strap Telesin with mount for sports cameras (GP-CGP-T0)

The Telesin GP-CGP-T07 chest strap with sports camera mount

Gain a unique perspective and create a breathtaking shot. The Telesin chest strap will come in handy for dynamic filmmakers and athletes who want to capture their exploits on original footage. Create a fantastic video while cycling, skiing along the slopes or kayaking. The accessory is comfortable and durable, and the size is adjustable.

Customize it to your needs

The chest strap was created to meet the diverse needs of users. Its size is easily adjustable - you can freely adjust it to your needs. The accessory is also distinguished by wide compatibility - it fits perfectly to sports cameras such as GoPro or Xiaoyi. No matter what equipment you use - Telesin will help you achieve the effect you dream of! Note: the camera should be in a case (not included).

Highest quality workmanship

This practical accessory will serve you well for a long time. It is made of flexible, durable materials, which makes it extremely durable and resistant to damage. It can also be used under water. The headband provides unparalleled comfort - record for as long as you want without fear of fatigue!
