

IP Camera ZOSI C225 4 pcs WiFi 5MP + NVR 8ch + 2TB HDD

Ref: 6941709235758

IP Camera ZOSI C225 4 pcs WiFi 5MP + NVR 8ch + 2TB HDD

Set of four IP cameras ZOSI C225 WiFi 5MP + recorder + HDD 2TB

The ZOSI C225 set of four IP cameras will provide you with complete security and peace of mind. With motion detection, high-quality images both day and night, and a recorder with a 2TB HDD, you can be sure that nothing will escape your attention.

See every detail

ZOSI C225 IP cameras offer 5MP resolution for excellent detail and clarity. The 4mm focal length and 110° viewing angle allow for wide area monitoring, which is ideal for securing large areas. Automatic white balance and the ability to adjust brightness, contrast, sharpness and saturation ensure that the image is always optimal, regardless of lighting conditions.

Night vision

With advanced night vision technology, ZOSI C225 cameras are capable of capturing images even in total darkness. The 850nm infrared LEDs provide a range of up to 30 meters, allowing effective monitoring around the clock. In addition, the cameras offer black-and-white and full-color modes and intelligently adapt to outdoor conditions.

Precise motion detection

The ZOSI C225 camera set is equipped with advanced motion detection features that recognize people, vehicles and faces. This reduces

the number of false alarms. If motion is detected, you will receive notifications to your smartphone via the app, allowing you to respond immediately. A siren will also be activated and lights will be turned on.

Two-way audio

Now you can conveniently communicate with people near the camera without having to leave the house. The C225 models support two-way audio, so you can ask the courier to leave a package at the front door, call the kids for dinner, or scare off a potential intruder.

NVR recorder with 2TB drive included

The kit comes with an NVR (Network Video Recorder) with a built-in 2TB HDD that supports up to 8 channels, allowing you to expand your system with additional cameras. With variable bitrate and support for H.265 compression, the recordings are of high quality and the disk capacity is used optimally. The recorder also allows synchronous playback from 4 channels, which is ideal for viewing footage from different cameras simultaneously.

Convenience and security

All ZOSI C225 cameras are weatherproof according to the IP66 standard, making them perfect for both indoor and outdoor use. You won't have any difficulties installing the devices, and with support for POE (Power over Ethernet), they can be powered directly via an Ethernet cable, reducing the number of cables and making installation easier.

Included:

ZOSI C225 x4 IP camera
NVR recorder
2TB HDD
Ethernet cable x5
NVR power supply
HDMI cable
USB mouse
Mounting screws
Mounting template x4
Warning stickers x4
User manual

Manufacturer ZOSI
CAMERA Model C225
Pixels 8MP
Lens 4mm @ F1.6, 110° viewing angle
Minimum illumination 0.012Lux (in color mode), 0Lux (with IR lighting on)
IR wavelength 850nm
Night vision range 30 m
Maximum image resolution 3840 x 2160 (8MP), dual-stream support
Video compression standard H.265
Main Profile
Stream type Variable
bitrate
Image settings Brightness, Contrast, Sharpness, Saturation
Audio input Built-in microphone
Audio compression standard G.711A
White balance Automatic
Noise reduction 3D DNR
Wide dynamic range
Digital and hardware support
Wired interface 1 x RJ45 10M/100M Ethernet
Software support Free app (Android/iOS), AvSS (PC/MacBook)
Intelligent detection
Detection of motion, people, vehicles
Night vision type Black and white night mode, full color night mode, intelligent night vision
Alarm type Light alarm, sound alarm, light and sound alarm, various alarm modes
Mounting angle Horizontal: 0-360°, Vertical: 0-75°
Power supply POE IEEE 802.3af DC12V
Protection level IP66 (waterproof and dustproof)
Material Metal + Plastic
Dimensions 225 x 102 x 63 mm
RECORDER
Video input 8 channels of IP camera
VGA output 1920x1080, 1280x1024, 1024x768
Standard kompresji wideo H.265
Main Profile
Video bitrate Up to 8Mbps
Dual stream
Network dual stream support (PC, MacBook, app)
Synchronous playback 4 channels
Recording mode Manual recording, scheduled recording, smart detection recording
Backup mode Regular backup, event backup
Drive type 1 x SATA interface
Network protocol IPv4, UPNP (plug and play), DHCP, P2P, RTSP, NTP (network time synchronization)
Mobile support Android, iOS
Email alert Send screenshots to email along with sub-stream images as attachments
Motion detection Supports independent setting of motion detection range
Push alert notifications Support motion detection notifications to mobile devices
Network interface 1 x RJ45 10M/100M/1000M adaptive Ethernet port
Audio output 3.5mm audio interface
Zasilanie DC48V/2A
USB support 2 x USB 2.0
POE network ports 16 x RJ45, 802.3af/at support
Power consumption
