Bike Mount Mcdodo CM-5240 (black)

Ref: 6921002652407

Mcdodo CM-5240 bike mount for phone (black)

The Mcdodo CM-5240 Bike Holder will allow you to have your smartphone always at hand while riding a bicycle, scooter, electric scooter or motorcycle. Made of durable ABS material, the holder provides both convenience of use and safety.

Safety and stability

With a locking button, the Mcdodo CM-5240 holder guarantees maximum stability and protection for your smartphone. The handle's arms are finished with EVA rubber, which effectively absorbs shocks and prevents the device from falling out. In addition, the holder does not block the screen or access to the buttons, allowing you to freely use your phone while driving.

Compatibility and convenience of use

The Mcdodo CM-5240 mount is compatible with smartphones with screen sizes from 4.2 to 6.5 inches. With convenient one-handed operation, the phone can be easily attached and removed, which is extremely practical for everyday use. The product also offers a fully adjustable 360° viewing angle, allowing you to customize your phone's position.

Easy, hassle-free installation

The mount fits perfectly on the vehicle's steering wheel, while the silicone finish on the inside and the dedicated screw ensure stability

and shock protection. In addition, the quick and hassle-free installation makes the Mcdodo CM-5240 mount ready to use in just a few moments.
