Digital Display USB to Lightning Data Cable Mcdodo CA-1060,

Ref: 6921002610605

Digital Display USB to Lightning Data Cable Mcdodo CA-1060, 1.2m

Mcdodo CA-1060 USB to Lightning display cable, 1.2m (black).

Charge your equipment quickly and without risk of damage. The Mcdodo CA-1060 uses an amperage of 3A and matches the voltage and amperage to the connected device. In addition, it was created from high-quality material, which translates into durability. It is fully compatible with iOS devices and allows data transfer at 480 Mbps - you will transfer 1G of files in 25 seconds.

Fast, secure charging

With the Mcdodo CA-1060 cable, you'll charge your device up to 62% in about 60 minutes. In addition, the reinforced copper core ensures lower power consumption and fast, stable charging. Besides, the dual chip with Smart Charging technology intelligently adjusts the voltage and amperage values to the connected device, so you can be sure that your devices are safe.

Durable construction and built-in display

The cable has undergone numerous durability tests and features a reinforced connection between the cable and the connector. It is made of aluminum alloy and nylon, which further protects it from damage. In addition, the included Velcro makes it easy to store the product and prevents it from tangling. In turn, the rounded LED display indicates the charging power.
