Ref: 6973696564009

Smart Wi-Fi LED Strip with RGBWW Meross MSL320 (5 meter) HomeKit

RGBWW Wi-Fi smart LED strip 5 meters Meross MSL320 (Homekit).

Take care of a unique atmosphere. The Meross MSL320 LED strip with a length of 5 meters is very easy to install and will perfectly decorate any room. Using the Meross app or Apple Home, you can choose from the available light colors or use the available scenes. You can also easily set a schedule for your device, or adjust the brightness and color temperature according to your preferences. You can also control the strip with your voice - the product is compatible with Apple HomeKit/Siri, Amazon Alexa, Google Assistant, SmartThings, and works with Wi-Fi.

Easy to use

Installing the tape will not cause you any problems. Meross MSL320 is extremely flexible and self-adhesive - just stick it to the desired location. Its length is 5 m, but you can cut it if necessary. Convenient remote operation of the tape is provided by the Meross app or Apple Home. Also, do not be afraid of problems with remote control, the device perfectly supports wireless as well as wired connections.

Tailored to your expectations

The dedicated app allows you to conveniently control the lighting wherever you are. Using it, you can set the desired brightness and color temperature of the light from 2700K-6500K, as well as choose from the available RGB colors. This makes it easy to create a fantastic atmosphere for any occasion. A movie night or maybe a dance party? Customize the lighting to blend in perfectly with your

home. Also try out the available lighting scenes.

Voice assistant

Don't have your phone nearby, but would like to change the lighting? Or maybe you want to switch off, but don't feel like getting up from the comfort of your bed? No problem - no need to reach for your phone anymore! The Meross MSL320 tape is compatible with voice assistants such as; Apple HomeKit/Siri, Amazon Alexa, Google Assistant, SmartThings. So you can conveniently operate it with the right commands. With just a few words, you can turn on the light, brighten it a bit, choose your favorite color or change the color temperature.

Smart timer

The app also allows you to create work schedules for the LED strip. You can easily set it to automatically turn on and off at specific times. A similar solution will work not only at home, but also, for example, in the workplace or in a store. Program the LED strip the way you like it!
