

Waterproof housing diving case PULUZ for DJI Osmo Pocket 3 4

Waterproof housing diving case PULUZ for DJI Osmo Pocket 3 45m

Ref: 5906168437021

PULUZ waterproof case for DJI Osmo Pocket 3 45m

The PULUZ waterproof case is specially designed for the DJI Osmo Pocket 3, made for water sports. It will be perfect for surfing, diving, swimming and other water-related activities, both on the surface and underwater. It guarantees waterproofing to a depth of up to 45 meters, so you can enjoy exploring the underwater world without worrying about the safety of your camera.

Reliable protection

The hard case protects your camera from falls and collisions, and provides protection from water, moisture, dust, sand, oil and dirt. Your camera will always be safe, no matter what conditions you use it in. With a fully see-through design and a tempered glass lens with a light transmission rate of more than 95%, the case retains its original image quality. You can capture all the beautiful moments in the highest resolution, without compromising on quality.

Easy underwater control

Specially designed control buttons provide convenient and precise control of the camera even underwater. This allows you to have full control of the device, which is extremely important during dynamic activities.
