

LED shadeless tent Puluz PU5044B 40cm

LED shadeless tent Puluz PU5044B 40cm

Ref: 5906168436895

Puluz PU5044B 40cm LED shadowless tent.

The Puluz PU5044B shadowless tent is the perfect solution for professional photographers looking to get the highest quality product photos. Offering three different lighting modes (white light, soft light and warm light) and a 10-step brightness adjustment (from 1% to 100%), it provides much higher brightness than standard tents. The lack of flickering and stroboscopic effect make photos look even more professional. A light diffuser is also included to make your photographs look more natural.

Professional LED light

Built-in 160 LEDs with a brightness of 25 lm and a color temperature of 3200K to 6500K provide excellent color reproduction. The professional silver reflective film inside the tent disperses light evenly, eliminating shadows and creating ideal shooting conditions.

Portable and collapsible

Still struggling with large and bulky camera equipment? The Puluz PU5044B shadowless tent solves all your problems! Thanks to its practical bag, you can carry it conveniently, and it takes just a few seconds to assemble and requires no additional tools. Its compact, foldable design means you can take it with you anywhere.

Shooting from multiple angles

The Puluz shadowless tent gives you the flexibility to photograph from a variety of angles. You can choose any angle you want for your photos, using either the full front window or the top window, giving you full creative freedom and a variety of shots.

Soft material to diffuse light

The tent comes with a soft light diffusing fabric, which is ideal for photographing highly reflective products. This allows it to subtly render the contours of objects.

Multicolored backgrounds

The Puluz PU5044B offers six interchangeable backgrounds in a variety of colors, allowing you to match the background to the subject you are photographing and get the perfect results. This allows you to create a variety of compositions and get professional photos without additional processing.

Included:
