# Wireless lamp Glocusent ET-Head clip-on book light, USB-C 65

Ref: 5906168435096

Wireless lamp Glocusent ET-Head clip-on book light, USB-C 650mAh timer (White)

Glocusent wireless lamp with clip, USB-C 650mAh timer (white)

Dreaming of the perfect light for evening reading that is not only functional, but also takes care of your eyes? The Glocusent wireless clip-on light, equipped with a 650mAh battery and USB-C port, is a solution made for book lovers. Thanks to its unique horizontal design, it illuminates a wide area of the page evenly and without sharp edges, providing ideal reading conditions without disturbing others' sleep.

Comfortable and safe lighting

The unique 1800K color temperature amber mode is designed for people who like to read before bed. It blocks 99.99% of blue light, protecting your eyes from fatigue and promoting melatonin production, making it easier to fall asleep. No flicker, harsh light or glare makes reading a pure pleasure.

Adjustable modes and brightness

The Glocusent lamp, in addition to the amber mode, offers 2 additional lighting modes soft (3400K) and natural (6000K). Each is designed to meet the different needs of readers. The soft mode offers a cool white light perfect for leisure reading, while the natural mode mimics bright daylight to aid concentration and efficiency. In addition, the lamp allows you to adjust the brightness levels, adapting to your individual preferences.

Long runtime and fast charging
Equipped with a USB-C port, the Glocusent light is easy to charge and extremely powerful. After a full charge, which takes just a few hours, the light can run from 8 to 80 hours, depending on the brightness settings. MSDS safety certification ensures high quality batteries and safe use.

Lightweight and portable
The lightest in its category, the Glocusent light weighs only 51 grams, making it lighter than most cell phones. Its compact and portable design makes it ideal for taking on the go or using in various locations without weighing down the book or causing damage.
