Naturehike Cloud Up 1 20D UPDATED NH18T010-T tent

Naturehike Cloud Up 1 20D UPDATED NH18T010-T Tent.

Ensure your comfort during outdoor adventures. The Naturehike tent is the perfect solution for hiking expeditions. Thanks to its lightweight construction, durability and hassle-free assembly, the product will work well for camping, trekking and any outdoor activity. Enjoy comfortable regardless of the weather conditions!

Lightweight construction

Naturehike tent weighs only about 1.33 kg, so transporting it will not be a challenge. The product will meet the expectations of hikers who need to minimize the weight of their equipment. Despite its lightness, it offers enough space for one person, ensuring freedom of movement.

Resistance to weather conditions

When designing the Naturehike tent, various weather conditions were taken into account. It was made using 20D nylon with a silicone coating and a PU layer with 4000mm water resistance. The solution used provided effective protection against rain, wind and snow. The material used is also resistant to abrasion and mechanical damage, which increases its lifespan.

Quick and easy assembly

The process of setting up the tent is intuitive and fast, which is especially important during adverse weather conditions. The mounting system based on lightweight 7001 aluminum poles and clips allows the structure to be erected quickly and stably.

Ventilation and comfort

Ventilated windows and a special moisture removal system prevent condensation inside the tent. This keeps its interior dry and comfortable even during humid nights.

Included:

Tent Set of arches Pins x12 Lashings x3 Operating instructions

Manufacturer Naturehike Model Cloud Up 1 20D UPDATED Manufacturer code NH18T010-T Material Tropic: 20D silicone nylon, PU 4000 mm / Inner layer: B3 mesh + 20D silicone nylon, PU 4000 mm / Bottom 150D Oxford cloth, PU 3000 mm / Risers: Aluminum 7001 Weight Approximately 1.33 kg (without accessories) Dimensions when folded 41 cm x Ø13 cm Color Gray
