Havit MS753 Universal Mouse

The MS753 computer mouse will work well both at work and at home. Thanks to its ergonomic design, it can be easily used by right- and left-handed people, children and adults. It is made of excellent quality materials - it is extremely durable. The high class optical sensor ensures a smooth operation of the device and the USB 2.0 port guarantees a faster response.

Convenience of use

The ergonomic design of the mouse provides extraordinary comfort of use. Moreover, the construction of the device makes it easy to use for both right- and left-handed people. Convenient buttons and scroll wheel will make using a computer much easier and more pleasant.

Long life

The lifespan of 3 million clicks is very high for such a small model, and the materials used are extremely durable, further extending the service life. Havit MS753 mouse is surprisingly durable and resistant to damage - it will serve you perfectly for many years.

Working comfort at the highest level

The optical drive is the biggest asset of the MS753 mouse, as it allows for its smooth and precise operation. The product is equipped with silent scrolling technology, which gives almost noiseless operation and thus high comfort. The connection via USB 2.0 port ensures a much shorter response time of the device.
