DEKCO DC9L outdoor camera with solar panel

The DEKCO DC9L outdoor camera is an excellent choice for those looking for a reliable and advanced solution for monitoring their home. It offers 5MP resolution, so it guarantees exceptional image quality, regardless of lighting conditions. The built-in light and sound alarm will enhance security, and the robust design ensures reliable performance for many years. Thanks to the solar panel, the camera can operate independently of traditional power sources, eliminating the need for power cables and reducing environmental impact.

High image resolution

Equipped with a 5MP (2560 x 1920) lens, the DC9L camera delivers exceptionally sharp and detailed images. Every detail is highly visible, enabling precise monitoring of the area both during the day and at night. What's more, the camera rotates 355° horizontally and 90° vertically, providing a wide viewing angle and the ability to monitor large areas.

Two-way audio

With two-way audio, you can not only hear what's going on, but also talk to people near the camera. Whether you want to greet a delivery person, warn an uninvited guest, or simply give instructions to family members, the DEKCO DC9L camera provides clear and immediate communication. It's an invaluable tool for both everyday situations and emergencies, allowing you to respond quickly!

Comprehensive protection

The DEKCO DC9L camera has a built-in light and sound alarm, providing a reliable part of your security system. When the camera detects unwanted movement, it immediately activates a warning signal and bright light that not only informs you of the incident, but also effectively deters potential intruders. This gives you peace of mind, knowing that your property is properly protected.

Secure storage of materials

The DEKCO DC9L allows you to conveniently store your recorded materials, giving you full control over the archiving of important data. With support for microSD memory cards of up to 256 GB, you can easily record and store long video sequences without having to frequently erase files. Alternatively, you can use the DEKCO cloud, which offers convenient and secure online storage. This will give you access to your recordings from anywhere in the world!

Full control in your hands

With the DEKCO app, using the DC9L camera becomes easy and intuitive. With its help, you can view real-time video from the camera on your smartphone or tablet, wherever you are. The app also allows you to control the camera remotely, allowing you to rotate its lens, zoom in or adjust settings without physical intervention. What's more, the DEKCO DC9L is compatible with Amazon Alexa and Google Home voice assistants. So you can easily control the camera with simple voice commands, further enhancing its functionality and convenience.

Easy installation, solar powered

The DEKCO DC9L is designed with simplicity of installation and operation in mind. Thanks to solar power and wireless Wi-Fi connectivity, there is no need to pull cables or use external power sources. This makes installation quick and easy, and the camera itself can operate continuously for long periods of time, ensuring reliability and energy savings.

Included:

camera mounting screws
USB-C to USB-A charging cable
positioning stickers
solar panel
joint socket
nut
locking cap
mounting base
set of screws
instruction manual

Manufacturer: DEKCO
Model: DC9L
Operating temperature: From -10°C to 55°C
AC power supply: DC5V/1A
Total power: 5W
Installation: Wall mounting
Storage: SD card support up to 128GB (no SD card included) and cloud
IP rating: IP65
Dimensions: 10 x 13.85 x 16.41 cm
Net weight: 0.46 kg
Image sensor: SC3336, 1/2.8" CMOS
Effective pixels: 3MP (2560 x 1920p)
Shutter: 1/60s
Min. illumination: Color 0.1 lux; Black/white 0.01 lux
Infrared distance: Up to 8 meters
Day/Night: Color and IR
WDR mode: Lens 4mm/F2.2/FOV 106°
Compression: H.264 & H.265
Transmission speed: 1024 kbps
Audio input/output: Built-in microphone/speaker
Alarm siren intensity: 90 dB
Alarm trigger: Motion detection, human body detection, over 20 seconds
Communication protocol: IEEE 802.11 a/b/g/n
Interface protocol: TCP, UDP
Wireless connectivity: 2.4 GHz Wi-Fi and Bluetooth
Supported operating system: Android, iOS
Security: TLS 1.2 & AES 256
Lamp power: 2W (White LED), 2W (IRLED)
Color temperature: 4500K
Illumination: 130 lm
Lamp control: DCDC-PWM
PIR detection: Range up to 10 meters
PIR angle: 90°
Application: Dekco
Compatible voice assistants: Google hub, Google Chromecast, Echo show

Preço:

€ 95.01
