Tempered Glass Nillkin 3D CP+MAX for Samsung Galaxy S22 Ultra

Ref: 6902048243309

Nillkin 3D CP+MAX tempered glass for Samsung Galaxy S22 Ultra

Give your smartphone the protection it deserves. The Nillkin 3D CP+MAX Tempered Glass is the perfect solution for those looking for reliable screen protection for the Samsung Galaxy S22 Ultra. Made from Japanese AGC glass and subjected to numerous treatments, the glass fully covers the screen, guaranteeing a perfect fit for your phone. The 9H hardness makes the surface extremely scratch-resistant, even when in contact with sharp objects. Its thickness is just 0.33 mm, and installation will not be a problem for you - nor do you have to worry about air bubbles forming.

Excellent image clarity

The glass has an oleophobic coating that effectively repels fingerprints and oil contamination, so you'll keep your screen pristine. HD light transmission reaches up to 99.9%, ensuring unchanged image clarity and color intensity. The glass is precisely tailored to fit a screen with rounded edges, preserving full touchscreen functionality.
