

Rechargeable Helical Blade Pencil Sharpener Tenwin 8010-1 mi

Ref: 6911410180104

Rechargeable Helical Blade Pencil Sharpener Tenwin 8010-1 micro USB (black)

Tenwin 8010-1 micro USB electric sharpener with container (black)

The Tenwin 8010-1 electric sharpener is the perfect tool for anyone who values precision, convenience and safety. It is equipped with a sturdy blade and a durable battery, and the automatic stop function when the sharpener is finished makes it easy to use. Moreover, it provides fast and efficient sharpening of pencils and crayons with a diameter of 6 to 8 mm.

Efficient operation

Tenwin 8010-1 is compatible with regular pencils, drawing pencils and crayons with a diameter of 6 to 8 mm. With a solid blade and the ability to replace it, the device guarantees long life and precise sharpening every time. On a single charge, the sharpener can therefore sharpen pencils or crayons up to 300 times, and the charging time is 2 hours using a power outlet or 4 hours via a micro USB cable.

Quiet and fast operation

The 8010-1 is distinguished by its quiet operation, so it won't make annoying noises. The tempering process takes just 3 seconds, and the device automatically stops operation when it finishes tempering, for greater convenience of use.

Safety and comfort

The Tenwin 8010-1 is equipped with an automatic stop when the reservoir is removed, and non-slip pads that provide stability and

prevent the sharpener from sliding on surfaces. In addition, the sharpener automatically removes the broken stylus, which further increases the convenience of use. Therefore, it can also be used by children.
