Interactive Dog and Cat Cheerble Ball Ice Cream

The Cheerble ball moves on its own, its action you can adjust to your pet's needs, using available modes. Equipped with a special system, it automatically avoids obstacles. It is finished with silicone and the LED lights in different colors will inform you about the mode of the ball. You can charge it using a cable with a USB port (included) in about 40 minutes. The set also includes a special bell, which you will attach to the toy. In addition, the ball is suitable for both cats and dogs.

Moves on its own

The Cheerble interactive ball is designed to move on its own. All your pet has to do is touch it. It does not require remote control or an app, so your cat can play by itself, and you can take care of something else in the meantime. Plus, it features a special obstacle avoidance system, so you don't have to worry about it getting stuck under the couch.

3 modes of operation

Adjust the operation of the ball to your pet's needs. Choose between modes: NORMAL, in which the ball moves and jumps, PASSIVE, where the toy starts moving when your cat touches it, or GENTLE, during which the ball only moves. What's more, the LED backlight will let you know which mode is on.

Thoughtful design

The ball is equipped with a 6-axis balance sensor that monitors the toy in real time, adjusting its movements at the right time and encouraging your pet to be active. Plus, it's designed to automatically shut off for 30 minutes after 10 minutes of operation, giving your cat/dog a rest. You can charge it with the included USB cable, and it has a run time of 1.5 to 4 hours. Made of environmentally friendly silicone, it is comfortable to use and runs quietly.
