

MOFII Wireless Mechanical Keyboard with Bluetooth ROMI 2.4G

Ref: 6950125752596

MOFII Wireless Mechanical Keyboard with Bluetooth ROMI 2.4G (Brown)

MOFII Wireless Mechanical Keyboard with Bluetooth ROMI 2.4G (Brown)

The MOFII Mechanical Keyboard is the perfect combination of modern design and advanced features to meet the needs of gamers and office workers alike. Equipped with 84 keys, this keyboard offers a compact format that doesn't sacrifice comfort or functionality. You can connect it to your device either wired or wirelessly. Its attractive design and sturdy construction make it not only a work tool, but also a stylish addition to any computer workstation.

Exceptional durability and precision

The MOFII keyboard was designed for intensive use. The mechanical keys offer a lifespan of up to 50 million clicks, guaranteeing long-lasting and trouble-free operation. The precise and responsive performance of the keys ensures that every command is instantly executed, which is crucial for both gaming and everyday office work.

Intelligent backlighting

The MOFII keyboard features an intelligent backlighting memory chip, which allows easy control with the FN + Insert key combination. It offers up to 20 different backlighting modes, including local illumination of selected keys. Six levels of LED brightness and five levels of backlight speed control allow you to fully customize the keyboard's appearance to suit your personal preferences.

Ergonomics and functionality

The MOFII mechanical keyboard has built-in multimedia keys for easy multimedia management and increased comfort. Non-slip rubber stands ensure the stability of the keyboard on any surface, which is especially important during dynamic gaming.
