Colmi i11 smartwatch (gray)

The Colmi i11 is a convenient smartwatch that offers plenty of useful features. It lets you choose from more than 100 sports modes and can monitor heart rate, blood oxygen saturation and sleep. It also allows Bluetooth calls - no need to reach for your phone every time! The watch features a 1.4-inch HD touchscreen, and has a runtime of up to 7 days on a single charge. It is also distinguished by its IP67 water resistance.

HD touchscreen display

Enjoy a comfortable smartwatch experience. The i11 features a round, 1.4-inch touch display with 240x240p resolution, which provides a clear, detailed image in almost any conditions. You can also customize its appearance to your liking by choosing from a variety of dial designs available in a dedicated app.

Stay connected

With Colmi i11, you don't have to worry about missing something important. The smartwatch will instantly notify you of all incoming messages - it is compatible with most popular apps such as Facebook, WhatsApp and Instagram. What's more, the device allows you to make phone calls via Bluetooth. With its help, you can also quickly reject an incoming call and reply to it with one of the default messages.

Something for athletes

Are you trying to lead an active lifestyle? The i11 smartwatch will help you with that! The device offers more than 100 sports modes to choose from (when connected to the app) and records data such as workout duration, distance covered, number of steps or calories burned, for example. Running, biking, dancing or maybe kickboxing? Choose your favorite sport or try something new!

Take care of your health

The smartwatch is equipped with a high-end optical sensor, so it can accurately monitor your heart rate. The device also measures blood oxygen saturation. It will also work well as a menstrual calendar and offers a sleep monitoring function. Keep your hand on the pulse, react quickly to alarming symptoms and enjoy good health!

Even more features

The Colmi i11 also offers a host of additional functions that are sure to come in handy on a daily basis. For example, the smartwatch allows you to remotely control the music player and camera of the phone paired with it. It will also prove useful as a timer, stopwatch or alarm clock. You can also use it to check the weather. The i11 also allows you to use a voice assistant.

Powerful battery

Forget about the need to charge your smartwatch frequently. The i11 is equipped with a powerful 230 mAh battery, which allows it to last up to 7 days fully charged. In standby mode, the device lasts up to 30 days! Charging the watch will only take about 2 hours.

Refined in every detail

High-quality materials were used to make the smartwatch, making it very durable and resistant to damage. It also features IP67 water resistance - no need to take it off your wrist when you wash your hands or it rains! What's more, the use of skin-friendly plastic means you don't have to worry about possible allergic reactions.
