

IMOU HR12G Dual-Band WiFi Router

IMOU HR12G Dual-Band WiFi Router

Ref: 6976391037465

IMOU HR12G Dual-Band WiFi Router.

IMOU HR12G is a high-end router that offers fast and reliable Wi-Fi connection. It is ideal for both home and office use. With Dual-Band Wi-Fi technology with up to 1200 Mbps (300 Mbps on 2.4GHz + 867Mbps on 5GHz), it provides smooth and stable data transfer in almost any conditions. Perfect for watching movies, playing games and more!

Reliable Wi-Fi connection

The HR12G router provides an extremely fast Wi-Fi connection thanks to 802.11ac technology. It offers a signal that perfectly penetrates walls and other obstacles, so you can enjoy seamless Internet access throughout your home. The Dual-Band solution and bandwidths of up to 300 Mbps (at 2.4 GHz) or even 867 Mbps (at 5 GHz) make the product ideal for office work, streaming in 4K, playing dynamic online games and more.

IMOU Link™ Mesh Networking

Imou-Link technology makes it easy to create a mesh network with a unified Wi-Fi name, providing seamless Internet access throughout your home. Forget about complicated configuration and connection problems - with IMOU, everything becomes simpler!

Perfect cooperation with IMOU cameras

The router automatically connects to the nearest IMOU cameras, ensuring quick and easy synchronization. What's more, thanks to the Stream Accelerate feature, the product uses a dedicated channel to transmit data from these devices, allowing for smooth monitoring and minimizing data loss even on heavily loaded Wi-Fi networks.

Remote management

The Imou Life app allows you to remotely operate the router and connected devices, enabling you to conveniently manage your network from anywhere. With its help, you can, for example, easily perform the necessary configuration, prepare Wi-Fi for guests or set parental controls. All it takes is a few clicks!
