Ref: 6921002649520

Mcdodo CH-4952 3-in-1 15W wireless charger (phone/TWS/Apple watch) black

Mcdodo CH-4952 3-in-1 15W Wireless Charger (phone/TWS/Apple watch).

The Mcdodo CH-4952 3-in-1 Wireless Charger is an innovative solution that will allow you to charge your phone, wireless headphones and Apple Watch at the same time. This device adapts to the needs of different models, providing fast and efficient charging. The N52's extremely powerful magnets guarantee excellent stability for your devices while charging, even when placed in a case. Its unique minimalist design and compact size (118 x 150 mm) make it the perfect addition to any modern interior.

Charge 3 devices simultaneously

The CH-4952 allows you to charge three devices at the same time, making it ideal for Apple product users. You can charge your iPhone with up to 15W, your AirPods with 5W and your Apple Watch with 2.5W, providing fast charging for each. What's more, it automatically recognizes the iPhone's iOS 17 system. This allows the device to display a real-time full-screen preview while charging in StandBy mode, so you can easily monitor notifications, messages or battery status without having to reach for your phone.

Safety first

The Mcdodo CH-4952 guarantees safety for both the devices being charged and the user. The charger is equipped with protections against overvoltage, overheating, overloading and short circuits, among others. What's more, an intelligent foreign object detection system prevents accidental charging of incompatible items, further enhancing user safety.

Practical night light

The charger also has a built-in night light, making it a great addition to any bedroom or office. The soft, warm light of the lamp creates a cozy atmosphere, ideal for reading at night or gentle illumination while working. Thus, the Mcdodo CH-4952 combines practicality and aesthetic appeal, being not only a utilitarian device, but also a decorative element.
