Computer case Darkflash LEO (black)

Darkflash LEO Computer Case (black)

The Darkflash LEO with its three fans can be installed at the front of the case. In addition, the cooling system provides the possibility to install three additional fans and water cooling for the PCU at the top of the case. Like most modern cases, it comes with a USB 3.0, two USB 2.0 and an HD audio port. Moreover, it is equipped with a transparent side panel that makes the backlight-based components visible.

Technical specifications

The case comes with a variety of ports such as one USB 3.0, two USB 2.0 ports and an HD audio port. It allows mounting a 330mm graphics card, up to 6 fans and a 240mm water cooler. The case supports ATX, Micro ATX, ITX motherboards and 7 expansion slots and allows you to mount 2 SSDs or HDDs. The case also features a reboot switch and a power switch. Moreover, the back panel allows you to organize your cables, thanks to a dedicated slot.

Modern Design

The case is equipped with a transparent tempered glass side panel and a metal mesh style front panel. This makes it possible to expose components based on backlighting. This way your computer will not only work efficiently, but will also look great.
