

## PC Water Cooling Darkflash DX240 RGB 2x 120x120 (white)

Ref: 6926170083862

PC Water Cooling Darkflash DX240 RGB 2x 120x120 (white)

### Darkflash DX240 water cooler

Make sure your computer's CPU is properly cooled. The DX240 water cooler impresses with its reliable performance and original, stylish design. The colorful backlighting allows you to give your hardware a unique character - the product also supports synchronization with the motherboard. The device efficiently distributes heat, and thanks to applied technical solutions it works extremely quietly. It is compatible with Intel and AMD processors, and its installation proves to be extremely simple.

### Optimum temperature

The cooler is made from high-grade materials that conduct heat brilliantly. The wavy fins of the device have helped to increase the area of efficiency of the device, and thus provide better cooling. The DX240's built-in fans are also responsible for its efficient operation. The cooler ensures efficient heat distribution and exchange, allowing you to maintain the right CPU temperature.

### Quiet operation

Noise bothers you? We have great news for you! The cooler works extremely quietly - its noise level is very low. This is made possible by the noise interception technology used by the fan blades to reduce air resistance. Play and work in peace - no more annoying noises!

### Free installation

Don't be afraid of problems when installing your radiator. The product is compatible with selected Intel and AMD processor models, and installation is relatively easy. It won't pose too much of a challenge. You can also sync the device with your motherboard.

#### More practical solutions

The DX240 cooling tube has been covered with a durable braided material. This allowed for an interesting style effect, as well as increased safety of use. Darkflash skillfully combines aesthetic and practical solutions to provide you with reliable yet attractive products!

#### Color backlight

The device features a fantastic gaming design. The spiral, colorful backlighting is an eye-catcher and makes your computer look great. The clever design of the water block has greatly improved the cooler's appearance, so the DX240 looks modern and stylish. For the most interesting aesthetic effects, combine the cooler with other RGB devices.

#### Manufacturer

Darkflash

#### Model

DX240

#### Cooling type

Water

#### Color

White

#### Number of fans

2

#### Fan dimensions

120x120 mm

#### Fan size

120x120x25 mm

#### Bearing type

Hydraulic Bearing

#### Fan speed

1800 RPM

#### Airflow

75,3 CFM

#### Maximum fan noise level

35 dBA

#### Dimensions of the heatsink

274x120x27 mm

#### Radiator material

Aluminum

#### Pump dimensions

75x75x53 mm

#### Pump rotation speed

2400 RPM

#### Maximum noise level of the pump

23 dBA

#### Supply voltage

12 V

#### Maximum current

1900 mA

Lifetime

40000 h

Connector

4 Pin + 3 Pin

Backlight

ARGB

Compatibility

Intel: LGA 775 / 1155 / 1156 / 1200 / 1366 / 2011 (Core i3/i5/i7);AMD: AM4/FM2 / FM1 / AM3+ / AM3 / AM2+ / AM2;

Weight

1,5 kg

TDP

230 W

Preço:

**€ 83.50**
