

Bluetooth Battery Tester Ancel BM200 6-20V DC

Bluetooth Battery Tester Ancel BM200 6-20V DC

Ref: 9313597352133

Ancel BM200 wireless Bluetooth battery tester

The Ancel BM200 is an innovative Bluetooth car battery tester that allows users to easily track battery health by connecting to a mobile app on iOS and Android devices. Equipped with Bluetooth 4.0, the BM200 provides a reliable and fast connection, allowing the user to access detailed battery diagnostic data.

Functionality and compatibility

The BM200 tester is compatible with all 12V batteries, making it a versatile tool for a variety of vehicles - from cars to trucks to motorcycles. The product provides a variety of testing functions, including engine start test, battery charge test, as well as battery voltage monitoring and vehicle route logging.

Ease of use

The BM200 features an intuitive installation process - just connect the device to the battery, scan the QR code, and enjoy access to real-time data.

More possibilities with the app

The mobile app, available for iOS and Android, allows you to monitor up to four vehicles simultaneously. From the app, you can not only

monitor battery status, but also record trip data, making the BM200 an invaluable tool for fleet managers.

Safety first

The product is equipped with reverse polarity and short-circuit protection, making it safer to use. Bluetooth technology ensures that data is transmitted securely and is not exposed to unauthorized access.
