Uperfect UFilm A17 15.6" 3840x2160 60Hz Portable Monitor

Uperfect UFilm A17 15.6" 3840x2160 60Hz portable monitor

The Uperfect UFilm A17 provides exceptional work efficiency and increases productivity. With its advanced display technology and versatility, the monitor is able to meet a variety of user needs. You can successfully connect it to a smartphone, laptop, computer or console. Whether you are working, watching a movie or playing games, the A17 is sure to meet your expectations.

UHD picture

The monitor features a 15.6-inch screen with a UHD resolution of 3840x2160, which guarantees clear and realistic images. With its IPS panel, 16:9 aspect ratio and 1000:1 contrast ratio, every detail is accurately rendered, making it ideal for both work and gaming. With a wide color gamut and HDR, the monitor delivers high color accuracy and detail.

Several ways to connect

The A17 monitor uses a standard HDMI port, which solves the lack of a USB-C port on many laptops. With an additional VGA DVI port and audio and video transmission functions, it is easy to connect various electronic devices. In addition, the USB-C port allows simultaneous data transmission and smartphone charging.

Full immersion

The FreeSync function eliminates the problem of screen tearing, and the 60 Hz refresh rate ensures smoothness of the image, which is especially important in games. Built-in 2x1W speakers and a 3.5mm headphone jack offer clear stereo sound, enhancing the gaming experience.

Additional features

The monitor offers USB OTG functionality to connect a mouse and keyboard, and the ability to duplicate and expand the screen provides additional flexibility. Additionally, for smartphones that support the USB 3.1 protocol, the monitor acts as a powerbank, charging the mobile device while in use.
