Wireless Headphones PowerLocus P2 (purple-black)

PowerLocus P2 wireless headphones (purple and black)

PowerLocus P2 wireless headphones are the perfect combination of style, comfort and advanced technology. They were created for people who appreciate excellent sound and convenience of use. They offer a long runtime (up to 20 hours on a single charge), versatile connection options and exceptional sound quality, making them a fantastic choice for everyday use.

Various connectivity options

The PowerLocus P2 offer connectivity both wired, using a 3.5mm audio cable, and wirelessly - thanks to Bluetooth 5.3. So you can adapt them to your needs in almost any situation and listen to music the way you want!

Long runtime

Enjoy uninterrupted music for up to 15-20 hours on a single charge. With PowerLocus P2, you don't have to worry about the battery draining too quickly! What's more, charging, which only takes about 2 hours, allows you to get your headphones ready for use again in no time. Forget about the long wait!

Sound that will delight you

The headphones are equipped with 40-millimeter drivers and offer a wide frequency response (from 20 Hz to 20,000 Hz). As a result,

they provide deep and crisp sound. Whether you're listening to music, watching movies or making calls, the sound will always be crystal clear!

Ergonomic design and comfort

PowerLocus P2 are designed for maximum comfort. The soft ear cups and adjustable headband ensure comfortable wearing for long periods of time. In addition, the light weight (168 g) and foldable design make the headphones easy to store and transport. You can easily take them on vacation or on a trip!

Additional capabilities

The headphones' built-in microphone allows you to make phone or Internet calls with ease, and the ability to play music from micro SD cards (with a capacity of 2 GB, 4 GB, 8 GB, 16 GB or 32 GB) means that you can easily listen to your favorite songs in almost any situation. There's also an FM radio mode at your disposal.

Compatible with many devices

The headphones are compatible with many devices, such as laptops, tablets and smartphones. This means you don't have to limit yourself - you can easily connect them to your equipment and enjoy your favorite music wherever you go. There is also an FM mode, which will allow you to comfortably listen to the radio anywhere.
