Wireless Headphones PowerLocus P4 (black)

PowerLocus P4 wireless headphones (black)

Discover a new level of comfort and sound quality with the PowerLocus P4 wireless headphones. With an impressive runtime of up to 50 hours, reliable Bluetooth 5.3 connectivity, ergonomic design and exceptional sound quality thanks to 40-millimeter drivers, they will be the perfect choice for any music lover.

Long runtime

Enjoy your music without unwanted interruptions thanks to an impressive runtime of 40 to 50 hours on a single charge. What's more, it only takes about 2 hours to charge the headphones - you'll be ready to use them again in no time. Forget about the long wait!

Two connectivity options

PowerLocus P4 offer exceptional flexibility thanks to their ability to be connected both wired (using a 3.5mm audio cable) and wirelessly - using fast and stable Bluetooth 5.3 technology, a perfect solution that allows you to switch freely between devices depending on the situation.

Great sound quality

With 40-millimeter drivers and a wide frequency response of 20-20000 Hz, the PowerLocus P4 headphones deliver deep, full sound and

excellent sound quality. Whether you're listening to music, watching movies or making calls, the audio will always be perfectly clear!

Ergonomic design

The PowerLocus P4 headphones are designed for maximum comfort. The soft earcups and adjustable headband make them comfortable to wear even for long periods of time, while their weight of just 181 grams and foldable design make them easy to transport and store.

Even more options

The built-in microphone also makes the headphones great for phone and Internet calls. Now you can be sure that your interlocutors will hear you without any problems! What's more, PowerLocus P1 support Multi Point technology, which allows you to connect them to multiple devices simultaneously.
