HEPA filter for Airrobo P20/P30

HEPA filter for Airrobo P20 and P30 cleaning robots will help you maintain cleanliness and excellent air quality in your home. It is made of premium materials and effectively captures fine dust particles, pollen, pet dander and other contaminants. It is also very easy to install and clean. The set includes four filters for the cleaning robot - to ensure its optimal performance, it is recommended to replace them every about 3-6 months (depending on the intensity of use).
