FairyWill FW-P80 sonic toothbrush with tip set and case (White)

FairyWill FW-P80 sonic toothbrush with tip set and case (white).

Take care of your oral hygiene without risking damage to your enamel or gums. The FairyWill P80 sonic toothbrush provides effective cleaning and is equipped with a special sensor so it will alert you if you brush your teeth too hard. It also offers 5 modes and a smart timer. The device is IPX7 waterproof and has a built-in durable battery. The set includes up to 8 interchangeable tips and a practical case.

Effective cleaning

The device generates vibrations at a frequency of up to 40,000 per minute, so it guarantees fast and thorough cleaning even of hard-to-reach areas of the mouth that a regular toothbrush can't reach. It even perfectly deals with stubborn stains and tartar. What's more, the improved motor makes the P80 surprisingly quiet - you don't have to worry about annoying noise!

Intelligent solutions

You no longer have to wonder if you're brushing your teeth for as long as you need to. The toothbrush is equipped with a special timer, which every 30 seconds with a short pause in vibration will remind you that you need to change the cleaned area. After 2 minutes, the device will automatically stop working. The P80 also has a precise pressure sensor. If it detects that you are brushing too hard, the red LED indicator will light up and the vibration frequency will be reduced. This will help you avoid damaging your enamel or gums.

5 cleaning modes

The toothbrush is designed to meet the diverse needs of users. It allows you to choose from 5 modes, which differ in vibration frequency. White mode will help whiten your teeth, while Polish will make it easier to polish them. Clean mode is great for everyday use - it provides thorough, effective cleaning. Massage offers a gentle gum massage. Sensitive will be suitable for beginners using the toothbrush and for people who have sensitive teeth.

8 tips in the set

To ensure that your toothbrush works effectively and avoids the proliferation of bacteria, you need to replace its tips regularly. FairyWill will make this task easier for you! In the set you will find up to 8 replaceable tips - such a supply will last you up to 2 years. You can also share them with other family members, so that they too can use the toothbrush. Are you worried that you will forget to replace the tip? Don't be! When the time comes, the bristles will begin to fade to remind you.

Waterproof

The FairyWill P80 toothbrush is also distinguished by its IPX7 waterproof rating. So you can use it in the shower or bath without worry. Even if it falls into water for a while or you splash it, it won't be damaged. You can also rinse and clean it. In this way, you will not only keep it in excellent condition for longer, but also reduce the risk of bacteria multiplication.

Long working time

You don't have to be limited to cables and available outlets. The P80 toothbrush is cordless, giving you almost unlimited freedom. It is equipped with a long-lasting rechargeable battery, so it can serve you for up to 25 days on a full charge. Charging the device takes only about 2 hours. The cordless, portable design and long runtime make the brush can accompany you almost anywhere - including on vacation. Its transportation is facilitated by the included case.
