The MIIIW brand is part of the Xiaomi ecosystem.

MIIIW Wireless Mouse (Black)

The MIIIW Wireless Mouse is the perfect combination of style, functionality and convenience. Its quiet operation, elegant design and advanced features make it an excellent choice for both office work and everyday use at home. With its adjustable DPI precision, easy installation and durability, the MIIIW mouse will meet the expectations of even the most demanding users, offering reliable performance and everyday comfort.

Quiet and comfortable use

The MIIIW wireless mouse is a device that combines comfortable use with exceptionally quiet operation. Thanks to its advanced design, the mouse's buttons generate only 30-40 dB of noise when clicked, making it ideal for offices, libraries, or working late at night at home. Its left button resistance ensures comfortable use without annoying sounds, allowing you to focus on your work without distractions.

Stylish and symmetrical design

The MIIIW mouse features a chic, sleek style that fits perfectly into any office environment. The classic black color and aesthetically pleasing design make the mouse look professional and modern. The symmetrical design is designed for both right- and left-handed

users, making it a universal solution for everyone.

Adjustable precision and ease of use

With a three-level DPI configuration (800, 1200 and 1600 DPI), the MIIIW mouse allows you to adjust the sensitivity of movement to suit your individual preferences. Whether you need more precision during graphics work or faster movement during computer games, this mouse will meet your needs. The plug-and-play assembly makes installation a breeze - just plug the 5.4G wireless receiver into your laptop or computer and enjoy full functionality instantly.

Durability and stability

The MIIIW wireless mouse is made of high-quality materials, which guarantees long-lasting use. The non-slip texture on both sides and the slim design ensure stability and a firm grip, even during prolonged use. Because the mouse is resistant to slipping caused by sweaty hands, use is always comfortable and safe.

Smart additional features

The MIIIW mouse is equipped with a multifunctional indicator that not only allows you to easily adjust the DPI level, but also informs you about the battery status. This gives you full control over the device's performance and avoids unexpected drainage during important tasks. Bet on professionalism and reliability with the MIIIW mouse.
