Enjoy MIIIW thermohygrometer (White)

The MIIIW brand is part of the Xiaomi ecosystem.

Enjoy MIIIW Thermohygrometer (White)

The Enjoy MIIIW thermohygrometer is a reliable and stylish device that helps maintain a healthy and comfortable environment in the home and office. With its precise temperature and humidity monitoring, innovative design and versatile mounting options, it is the perfect choice for anyone who wants to provide the best living conditions for themselves and their family. Choose the MIIIW thermohygrometer and enjoy complete comfort and health every day!

Precise monitoring

Sudden changes in temperature and humidity can cause cold or allergic discomfort, especially in children and the elderly, so the MIIIW UJOY thermohygrometer allows you to keep an eye on the change in your environment and adjust the best possible conditions in your home or office accordingly, creating an optimal environment for all members of your household. Take care of yourself and your loved ones with MIIIW.

Intuitive interface

The device displays up to 5 important pieces of information on its eye-friendly screen, which is not only easy to read, but also intuitive to

use. Humidity and temperature data are clearly highlighted, with graphics depicting dryness (orange), comfort (green) and humidity (blue) levels for quick and easy recognition of room conditions. The 2.5D screen offers better color saturation and a wide 150-degree viewing angle, making it convenient to read information from any perspective.

Advanced technology and innovative design

The Enjoy thermo-hygrometer is equipped with built-in chips that measure temperature and humidity, automatically analyzing the indoor environment to maintain the best possible conditions in your home. The device starts displaying the temperature after 30 minutes of operation and thus accurately analyzes the room environment. The innovative design, larger screen and better color saturation make the thermo-hygrometer not only functional, but also aesthetically pleasing, making it a great choice for any interior.

Versatile mounting options and ease of use

The MIIIW thermohygrometer offers three different mounting options, making it easily adaptable to different rooms and user needs. The device can be placed on a table (with the option to tilt the screen 55 or 35 degrees), mounted on a wall with the included wall decal, or attached to a refrigerator or other metal object thanks to a built-in magnet. Such versatility makes the MIIIW thermohygrometer extremely practical and easy to use.

Long-lasting battery life and energy savings

The Enjoy MIIIW runs on CR2032 batteries, which ensure the life of the device for up to 12 months. This practical solution allows for long-term use without the need to change batteries frequently, which is not only economical, but also increases convenience and saves time.

An ideal choice for any interior

Thanks to its multifunctionality, the MIIIW thermohygrometer is an ideal choice for both the home and office. Its sleek and modern design makes it a perfect match for any interior, and its practicality makes it an invaluable tool in everyday life. In addition, it helps monitor the environment at night, providing comfortable conditions that promote better sleep and a healthy lifestyle, and is a great way to ensure a safe and hygienic environment for the youngest members of the family.
