MOFII Candy M wired mechanical keyboard (pink)

Mofii Candy M is a keyboard that combines stylish, original design with functionality. It is an ideal choice for people who appreciate aesthetics, but do not want to sacrifice performance and comfort. Thanks to its unique features, Mofii Candy M is sure to become a decoration of any desk, while providing excellent support in daily work.

Ideal for gamers

Mofii Candy M keyboard is a mechanical gaming keyboard designed for the most demanding users. Equipped with 84 precision keys, it offers an incredible lifespan of up to 50 million clicks. This makes it an ideal choice for both avid gamers and professionals who value hardware reliability.

Comfort every day

The keyboard was designed with comfort in mind. The round keys with a pleasant tactile finish not only look attractive, but also ensure comfortable work for long hours. Thanks to the properly shaped base and rubber, non-slip feet, the keyboard stably stays on the surface of the desk, which increases comfort while typing. Connecting it to the computer allows a long 1.8-meter cable with a gold-plated connector, which guarantees reliable, stable signal transmission and resistance to interference.

Backlighting for a better experience

The Mofii Candy M keyboard features an intelligent backlighting system with a memory function that offers up to 20 different backlighting modes, from gentle "breathing" effects to dynamic light patterns. The ability to adjust the brightness on 6 levels and the speed of changing light effects on 5 levels allows you to customize the backlighting to your personal preferences. The backlighting is controlled by a combination of keys, allowing you to change settings easily and quickly.

Function keys

Time is very important both at work and during gameplay. MOFII brand keyboard will help you save it, making it even easier to operate your computer! The device is equipped with 12 function keys, which, among other things, allow you to conveniently adjust the volume and operate the media player, as well as provide quick access to your e-mail box, search engine or calculator. All you need is a simple key combination!
