

Maintenance-free AGM VRLA Green Cell AGM37 4V 4Ah Battery (f

Ref: 5907813963346

Maintenance-free AGM VRLA Green Cell AGM37 4V 4Ah Battery (for alarm system, cash register, toy)

Maintenance-free AGM VRLA Green Cell AGM37 4V 4Ah Battery (for alarm system, cash register, toy).

Green Cell's AGM VRLA battery with 4V voltage and 4Ah capacity is a high-tech solution that is designed for maximum performance and safe use. Utilizing AGM (Absorbent Glass Mat) technology, this battery is ideal for both buffer and cyclic operation, making it a versatile choice for a variety of applications such as alarm systems, cash registers, toys, and photovoltaic installations.

AGM technology - safety and versatility

Green Cell battery based on AGM technology is characterized by absorbed electrolyte in glass mat separators, which prevents leakage and allows safe use in any position. Thanks to this technology, the battery is much safer than traditional lead-acid batteries, while providing high current capacity and longer operating time. It is ideal for toys, cash registers, lighting, as well as UPS systems and other devices requiring reliable power supply.

Cyclic and buffer operation - reliable performance in any situation

The Green Cell battery is designed for both cyclic and buffer operation. In cyclic operation, the battery acts as a stand-alone power source, prepared for frequent charging and discharging. In buffer mode, it acts as an emergency power supply, providing additional power in case the main power source fails. This makes the battery versatile and works well in a variety of conditions, from alarm systems to mobile devices.

Maintenance-free operation and high durability

The Green Cell AGM battery guarantees maintenance-free operation for more than 5 years, without the need for maintenance or topping up electrolyte. The use of VRLA (Valve-Regulated Lead-Acid) valves ensures self-regulation of pressure inside the battery, which further enhances safety and extends its life. Thanks to its shock and vibration resistance, the battery will perform well in harsh environments, offering reliable power wherever it is needed.

Safety and convenience of use

Green Cell's AGM battery is designed for maximum user safety. Thanks to its sealed design, it does not emit fumes and can be safely used in enclosed spaces such as offices and homes. Its ability to be installed in any position and its ability to withstand harsh conditions make it a reliable and convenient energy source for a wide range of applications.

Name:Maintenance-free AGM VRLA Green Cell AGM37 4V 4Ah Battery (for alarm system, cash register, toy)Manufacturer:Green CellModel:AGM37Type:VRLA AGMVoltage:4VCapacity:4AhColor:BlackWeight:450gDimensions (length x width x height):48 x 48 x 102mmOverall height (with connectors):108mmTerminal:Faston 187 (F1)Internal resistance: $\leq 50\text{m}\Omega$ (at 25°C)Self-discharge:2% per month (at 25°C)Lifetime:More than 5 yearsApplication:Alarm systems, cash registers, toysBuffer charge:4.5-4.6VCyclic charging:4.8-5.0VMaximum charging current:1.2ACapacity by temperature:(40°C - 102%) (25°C- 100%) (0°C- 85%) (-15°C- 65%)Set:Screws + nutsWarranty:24 monthsCondition:New
