

Maintenance-free AGM VRLA Green Cell AGM51 12V 17Ah Battery

Ref: 5907813966507

Maintenance-free AGM VRLA Green Cell AGM51 12V 17Ah Battery (for lawnmower, scooter, boat, wheelchair)

Maintenance-free AGM VRLA Green Cell AGM51 12V 17Ah Battery (for lawnmower, scooter, boat, wheelchair).

The maintenance-free AGM VRLA Green Cell AGM51 12V 17Ah Battery is a reliable energy source designed to power a variety of equipment such as lawnmowers, scooters, boats and wheelchairs. Thanks to AGM (Absorbent Glass Mat) technology, the battery features high performance and long life, making it an ideal choice for applications that require stable and safe power supply.

AGM Battery - The heart of your devices more efficient than ever

5+ years of service life
Guaranteed safety
Operation in a variety of positions
High current capacity
Maintenance-free
Shock and impact resistant

What distinguishes an AGM battery and what is its advantage over a traditional battery?

AGM batteries guarantee far superior performance compared to ordinary lead-acid batteries. Their safety is ensured by AGM VRLA technology - one-way valves that prevent the electrolyte from leaking out. This in turn is trapped between extra-thick lead plates with fiberglass separators.

Cyclic operation

The cyclic use of a battery is to use it as a stand-alone, independent power source. AGM batteries are better suited to very frequent

charging and discharging than their older counterparts. Thus, they are used in wheelchairs, photovoltaic installations, golf carts, toys and lawnmowers.

Buffer operation

Buffer operation allows a battery to act as a backup power supply for a plugged-in device. A battery connected to a power system in the event of a failure of the main power source provides additional power. They are used in this way in alarm systems, UPS, cash registers or emergency lighting.

Name: Maintenance-free AGM VRLA Green Cell AGM51 12V 17Ah Battery (for lawnmower, scooter, boat, wheelchair) Manufacturer: Green Cell Model: AGM51 Color: Black Capacity: 17Ah Voltage: 12V Type: VRLA AGM Terminal: M5 screw (F3) Lifespan: 5+ years Max. discharge current: 3C Self-discharge: 2% per month (at 25°C) Capacity by temperature: (40 °C - 102%) (25 °C - 100%) (0 °C - 85%) (-15 °C - 65%) Buffer charge: 13.5 - 13.8 V (-20 mV/C) Cyclic charging: 14.5 - 14.9 V (-30 mV/C) Internal resistance: $\leq 16.5\text{m}\Omega$ (at 25°C) Maximum charging current: 5.4 A Overall height (with connectors): 167 mm Application: For boats and photovoltaic installations Capacity range: 10-20 Ah Dimensions: 181x77x167mm Weight: 4.5kg Warranty: 24 months

Preço:

€ 37.99

Acessórios para computadores, Baterias e pilhas, Rechargeable batteries
