

Wodoszczelna obudowa Puluz do kamery Insta360 Ace Pro

Ref: 5906168433689

Wodoszczelna obudowa Puluz do kamery Insta360 Ace Pro

Puluz waterproof housing for Insta360 Ace Pro camera

The Puluz waterproof housing is the perfect tool for exploring the underwater world. It allows you to freely record unforgettable underwater adventures without worrying about damaging your camera. It not only protects the camera from water, but also from dust, fingerprints and scratches, ensuring clear and crisp images even in harsh conditions. It also features a cold shoe mount, allowing you to mount additional accessories such as lights.

Discover the magic of the underwater world

Get unlimited underwater recording possibilities! The housing allows the camera to be submerged as deep as 60 meters, allowing you to create amazing shots. The tempered optical glass lens provides excellent image clarity, close to 100%, ensuring that your recordings will remain clear and bright, even underwater. A special anti-reflective (AR) coating reduces unwanted glare and scattered light, improving image quality and reducing light loss.
