Filter ND64 Freewell for DJI Avata 2

Ref: 6972971865404

Filter ND64 Freewell for DJI Avata 2

Freewell ND64 Filter for DJI Avata 2
Protect your camera lens and enhance the quality of your shots with Freewell's offering. The ND64 filter provides protection against scratches, water, and dust, while effectively reducing the amount of light entering through the lens. The product is made of high-quality optical glass and aluminum alloy. Its lightweight design distinguishes it – you don't have to worry about burdening your device.

Effective Performance
The Freewell ND64 filter ensures effective reduction of reflections, allowing you to easily capture shots characterized by realistic colors and excellent contrast. The product also helps control the camera's exposure settings during outdoor photography and offers 6-stop compensation, allowing you to reduce the amount of light entering through the lens.

Multiple Possibilities
With the ND64 filter, you can successfully capture stunning landscape shots and achieve soft and smooth effects on water or clouds. You can easily capture the movement of cars, people, or animals and achieve even exposure, even on sunny days.

Refined Construction
The Freewell product is made of high-quality optical glass and aluminum alloy. It provides protection against water and resistance to dust
