Babymoov Yoo Master electronic nanny (green)

Babymoov Yoo Master electronic nanny (green)

Keep your hand on the pulse and be assured that everything is in order when your baby is sleeping. The Babymoov Yoo Master electronic nanny is an advanced device that will give you complete peace of mind and control. With its 360° panoramic view, you can easily monitor your little one's room, and the built-in night vision allows you to keep an eye on everything even in the dark. In addition, the 3.5-inch screen offers crisp, richly detailed images.

Full range of motion, night vision and zoom function

The Yoo Master camera guarantees full range of motion - you can remotely rotate it 360°, so you can easily check what's going on in every nook and cranny of the room. With Babymoov you have everything under control! In addition, thanks to the night vision and zoom function (2x), the nanny allows you to monitor your baby even in total darkness. The clear picture on the 3.5-inch screen provides peace of mind both during the day and at night. What's more, the adjustable volume and various alarm options (audible, visual, vibration) ensure that you'll always be aware when your baby needs you.

Sleep technology and power saving

The Yoo Master nanny uses sleep technology - it only activates when sound is detected. This saves energy and minimizes RF emissions! The VOX (voice activation) function automatically turns the device on when it detects sound, so you can be sure you won't miss anything

important.

Intercom function and soothing lullabies

The Yoo Master nanny supports an intercom function, which allows you to talk directly to your baby through a module designed for the parent. This allows you to quickly soothe your toddler with your voice. In addition, the device offers 8 soothing lullabies to help the little ones fall asleep.

Temperature sensor and flexibility of use

The built-in temperature display allows you to monitor the conditions in your baby's room, so you can create the optimal sleeping environment for your baby. The Yoo Master nanny is also very easy to use - all settings, such as volume or microphone sensitivity, for example, can be quickly configured using an intuitive menu. In addition, the ability to connect up to four cameras allows you to monitor different rooms at the same time, which increases the functionality of the device.
