

Silicone Diaphragm and Valve for breast pump Momcozy M5

Ref: 5906168435225

Silicone Diaphragm and Valve for breast pump Momcozy M5

Diaphragm with valve for Momcozy M5

Introducing the diaphragm with valve for Momcozy M5 breast pumps, a key component to ensure smooth operation of your lactation pump. Made of BPA-free materials, it guarantees complete milk safety for your baby. It is recommended to replace the diaphragm regularly to ensure continuous performance and hygiene during milk extraction and feeding. With this product, you can be sure that you are feeding your baby in a safe way, taking care of his health and well-being.
