Haylou LS02 Pro smartwatch (silver)

Ref: 6971664934434

Haylou LS02 Pro smartwatch (silver).

Introducing a smartwatch that exceeds the capabilities of an ordinary watch! Haylou LS02 Pro will become your personal assistant! Notifications, useful functions to monitor your health, workout measurements and much more. All this on your wrist! The smartwatch features a 1.85-inch screen with impressive colors and a long-lasting battery, allowing up to 20 days of use in basic mode. It features a sleek design and robust construction with IP68 protection. You can personalize its look with more than a hundred dials, and with a few additional features, you can use it to start a self-timer on the camera, find a lost phone and set an alarm. Check out what else it will surprise you with!

Clear screen

With LS02 Pro, every touch and swipe on the screen becomes easy and intuitive. Taking full advantage of the 1.85-inch screen with a resolution of 240 x 284, you gain access to exceptionally vivid and detailed images. The clarity and sharpness of the display is a guarantee that no notification or statistics of your physical activity will escape your attention. An impressive screen-to-body ratio of 65.8% means that every inch of your smartwatch is used to its maximum potential, offering you a comfortable surface for interaction.

Customize to your preferences

The LS02 Pro smartwatch offers more than 100 vivid, crisp dial suggestions. You can also choose from 3 view modes, so you can easily

customize the look of the watch to suit your preferences. A minimalist interface or a full-color dial? Or perhaps a photo taken by you? The choice is yours!

On guard for your health

Now you can take care of your health effortlessly! LS02 Pro monitors your heart rate and blood oxygen saturation - even at night! So you can quickly catch any changes and react to them quickly. The smartwatch also offers a variety of breathing exercises to help you lower your stress levels. Check your results in real time and gain full control!

He works while you sleep

Feeling tired and can't remember what it means to be sleepy? With a smartwatch, you can easily develop healthier sleep habits! The LS02 Pro monitors your sleep, creating graphs that tell you how long each phase of your sleep lasts. Regularly tracking this information will allow you to catch how stress or changes in diet or physical activity affect the quality of your sleep, and then according to this information, implement healthier habits that will allow you to finally rest!

Cycles under control

LS02 Pro is reliable when it comes to monitoring women's health. It is a solution to track your cycles and stay on top of changes. After entering basic information, LS02 Pro will help you predict the date of your upcoming menstruation by sending you a timely notification! You no longer have to worry about being surprised at the least opportune moment!

Train and break your own records

The smartwatch offers up to 100 sports modes, taking into account the most popular sports. The use of precise sensors allows you to record your movements, providing you with such information as the number of steps, calories burned and distance traveled. Work on your form by setting goals and breaking your records every day!

Thoughtful design

This model is distinguished by its elegant design and integrated metal construction, whose matte finish gives it a luxurious look. However, looks are not everything! The IP68 rating is a guarantee of durability - it is not intimidated by sweat, so it can accompany you during an intense workout without any worries - even the one in the rain!

Your personal assistant

Now you have access to important information at your fingertips! Connected to your phone via Bluetooth, the smartwatch allows you to receive calls, making it convenient to talk on the phone without having to take it out of your pocket. In addition, it will notify you of incoming voice messages, as well as app notifications, so you won't miss any more important messages!

Durable battery

A single charge of the smartwatch provides up to 20 days of use in basic mode. Daily use in the other functions mode allows for 10 days of operation. So you don't have to worry about the battery draining too quickly.

Other convenient features

How else will the LS02 Pro make your life easier? Connect it to your phone via an app and make the most of its capabilities by setting an alarm, managing your music player or using the self-timer on your smartphone's camera. Don't know where your phone is? The practical "Find phone" function will allow you to locate it from the smartwatch!
