HOTWAV Note 13 smartphone - 6.6" 4+4/128GB Blue

Meet a smartphone that perfectly combines unique design with advanced technology. HOTWAV Note 13 is a device created for those who want more from their phone - more power, more space for your favorite apps and photos, and more freedom with long-lasting power and versatile connectivity options. It's a smartphone that will give you everything you need on a daily basis - in a fashionable, elegant design.

Immerse yourself in crisp colors and smooth visuals

The HOTWAV Note 13 offers a stunning 6.6-inch HD+ display that captures your attention with crispness and rich colors. With a resolution of 720x1612 pixels and a brightness of 500 nits, every detail is clear and sharp, regardless of lighting conditions. The screen's 20:9 aspect ratio and high screen-to-body ratio (92%) make the screen literally absorbing, offering more space for multimedia and content browsing. In addition, the 90Hz adaptive refresh rate provides ultra-smooth scrolling and transitions, greatly enhancing the user experience.

Performance you can count on

Under the hood of the HOTWAV Note 13 is the powerful Unisoc T606 processor, based on 12nm architecture, which ensures smooth performance and stability in any situation. With a maximum CPU frequency of 1.6 GHz and LPDDR 4X graphics, the device can perfectly handle demanding applications and games. The smartphone offers up to 8GB of RAM (4GB RAM + 4GB expandable RAM) and 128GB of

internal storage, which you can expand up to 1TB with a TF card. This is ideal for those who need plenty of space for their files, photos and apps, without having to delete anything.

A camera that captures every moment

You won't miss a moment thanks to the HOTWAV Note 13's advanced AI dual-camera system. The 50MP main camera allows you to take photos with incredible sharpness and rich detail, even in low light. With AI support, each photo is automatically optimized to capture the beauty of the moment. The 16MP front camera with beautification function makes every selfie look like it's from a professional photo studio, highlighting your natural beauty.

A battery that will keep up with you

With a 5160mAh battery, the HOTWAV Note 13 provides up to 800 hours in standby mode and long hours of uninterrupted use - from morning messages (up to 20 hours of phone calls) to evening gaming sessions (up to 7 hours of playing games, 27 hours of listening to music and up to 8 hours of watching video content). With support for 10W fast charging, the device quickly recovers to full power, so you don't have to worry about being left without power at a crucial moment.

Safety and convenience at your fingertips

The HOTWAV Note 13 is equipped with advanced security options, such as face unlock and a fingerprint reader on the side of the device. This ensures that your data is always safe, and access to your phone is quick and convenient. Android 13 offers a clear interface and a range of personalization features, allowing you to customize the device to your individual needs and preferences.

Perfect connectivity wherever you are

No matter where you are, HOTWAV Note 13 provides a stable and fast connection thanks to support for global LTE bands. Built-in GPS, GLONASS, Beidou and Galileo navigation technologies guarantee precise location tracking, even in the most remote corners of the world.
