HOTWAV W11 Smartphone - 6.6" 6+6/256 GB Gray

The HOTWAV W11 smartphone is a device that combines performance, durability and versatility. With its impressive battery, large memory, exceptional photo quality and reliable design, it is an ideal choice for demanding users. If you're looking for a smartphone that's up to any challenge, the HOTWAV W11 is a choice you can rely on.

Performance and capacity at the highest level

With a battery with an impressive 20,800 mAh capacity, the W11 can function for up to 100 days on a single charge. The extended runtime makes it an ideal choice for those who value reliability, both on the go and in everyday use. With built-in RAM of 6GB, expandable up to 12GB, and ROM of 256GB, expandable up to 2TB, storing all your files in one place has never been easier. Forget the problems of running out of space - the W11 offers the space to hold everything you need.

Multifunctionality at your fingertips

The HOTWAV W11 offers a wide range of features that make everyday use easy and convenient. A 10W chargeback allows you to use your smartphone as a powerbank, while the W11's 33W fast-charging battery keeps your device ready for action. In addition, the ability to unlock using facial or fingerprint recognition provides convenience and security for use.

### Excellent image and photo quality

Equipped with a 64-megapixel Sony lens as the rear main camera, the smartphone allows you to capture all the beautiful moments with outstanding clarity and vivid details. In addition, a 24MP rear camera for night recording ensures clear and detailed photos even in the dark. This is ideal for outdoor adventurers and explorers of the night world. The 16MP front camera allows you to take high-quality selfies, and the 6.6 HD+ (1080x2460) screen offers exceptionally clear and high resolution for a great visual experience when viewing photos and videos.

### Essential features

With its triple navigation configuration (GPS, GLONASS, Galileo), the HOTWAV W11 is the perfect partner for exploring unexplored corners. It will ensure that you always reach your destination without any obstacles. In addition, the Glove Mode feature allows you to use the smartphone even with gloves on, while DuraSpeed optimizes the device's performance and extends battery life. In addition, the device supports Android 13.0, which impresses with its modern technology and extensive capabilities.

### An impressive flashlight for various circumstances

The W11 has an extremely powerful rear-mounted LED flashlight that impresses with its brightness and power and offers up to 280 lumens. With about 510 beads of light and up to 6 watts of power, this LED flashlight effectively casts a beam of light over long distances. In addition, it is highly waterproof and resistant to falls, abrasions and scratches. The lamp has 3 lighting modes: full, half and low illumination, as well as SOS and strobe effects. You can customize the lighting modes with the dedicated app. The lamp is useful in a variety of situations, such as camping, working in dark and tight places, outdoor events, wilderness expeditions, etc.

### Durability and safety

HOTWAV W11 is also a smartphone made for special tasks. Reinforced with Corning® Gorilla® Glass 3, and certified to IP68, IP69K and MIL-STD-810, it will withstand the toughest conditions. It is dust-resistant, waterproof (you can submerge it at a depth of 2 meters for at least 30 minutes) and can withstand drops from up to 1.2 meters. In addition, the aluminum alloy side frame and thickened rubber corners protect it from mechanical damage. This makes it an excellent choice for dynamic, intense excursions.

### A reliable partner for any circumstance

The HOTWAV W11 is more than just a smartphone - it's a reliable companion that will meet any challenge. It also has features such as NFC+Google Pay, a key for personalization, a compass and an audio meter. Whether you need a device for everyday use, extreme adventures or professional photography, the W11 is made to meet your needs.
