Smartfon HOTWAV T7 - 6.52" 4+4/128GB Szary

HOTWAV T7 Smartphone - 6.52" 4+4/128GB Gray

HOTWAV T7 is a smartphone that combines rugged construction with a sleek design to create the perfect device for the active. Featuring a 6.52-inch HD+ display, a powerful 6280mAh battery, a 21MP main camera from Sony, and IP68, IP69K and MIL-STD-810H ruggedness certifications, the T7 is ready for any challenge, no matter the conditions. With 8GB RAM (4GB RAM + 4GB expandable memory) and 128GB ROM expandable up to 2TB, the smartphone provides excellent performance and space for all your files. With its combination of ruggedness and advanced features, HOTWAV T7 becomes an indispensable companion in any situation.

Exceptional ruggedness and modern design

HOTWAV T7 stands out from other devices thanks to its combination of durability and modern, stylish design. Its robust design meets IP68 and IP69K standards, which means full water and dust resistance. In addition, the MIL-STD-810H standard provides protection against drops and harsh weather conditions, making it an ideal choice for active people. Despite its ruggedness, the T7 weighs only 292g and is only 12.8mm thick, making it extremely portable and comfortable to use.

A display that impresses with clarity

Enjoy a great visual experience with its large 6.52-inch HD+ display with a resolution of 720x1600 pixels. The screen offers vivid, saturated colors and crisp details that are perfect for watching movies, browsing the Internet or gaming. With a brightness of 450 nits,

the display remains legible even in bright sunlight, while the screen's 19.5:9 aspect ratio and 91% screen-to-case ratio provide an immersive experience. The touchscreen feature, which you can operate even with gloves on, makes it easy to use the device in any conditions.

A camera that captures every moment

You won't miss a moment with the HOTWAV T7. The smartphone is equipped with an 8MP front camera and a 21MP Sony main camera, both of which provide excellent photo and video quality. The front camera is perfect for selfies and video calls, providing sharp and clear images. The 21MP Sony main camera easily captures all details and colors, offering exceptional photo quality in both day and night conditions. Whether you're shooting landscapes, portraits or want to capture spontaneous moments, the T7 is always ready for action.

Performance you can rely on

With a MediaTek MT8788 processor that offers the performance you need for both daily tasks and intense gaming, the HOTWAV T7 is ready to meet any challenge. The octa-core chipset, combined with the Mali-G72 MP3 graphics chip, ensures smooth performance and excellent graphics quality, ideal for multimedia and gaming. The smartphone also offers 8GB of RAM (4GB RAM + 4GB expandable memory), ensuring fast and seamless performance even with multiple apps open at the same time. 128GB of internal memory expandable up to 2TB provides plenty of space for all your photos, videos and apps.

Reliable battery

The HOTWAV T7 comes with a large 6280mAh battery that provides up to 50 days of standby time. Whether you're streaming, gaming or making long calls, the battery provides power for hours of use without the need for frequent charging. This is ideal for those who need a device that is reliable all day and even longer.

Precise navigation in any situation

HOTWAV T7 is equipped with an advanced navigation system that combines GPS, GLONASS and Galileo technology. As a result, the smartphone offers precise and fast location of your position, no matter where you are. Whether you're in a dense forest, on a mountain trail or in the concrete jungle of a city, HOTWAV T7 provides reliable navigation that will guide you exactly where you want to be. The combination of these three satellite systems improves positioning accuracy as well as responsiveness, which is crucial when traveling, going on outdoor expeditions or using location-based apps in an urban environment. With HOTWAV T7, you'll never get lost - no matter how far you travel.

Smart features for maximum convenience

The HOTWAV T7 not only impresses with its durability and performance, but also offers a number of modern features that make everyday use easier. With Face ID, you can quickly and securely unlock your phone using facial recognition. It also supports gesture response, allowing you to quickly launch your favorite apps or make calls with simple on-screen gestures. Using the phone becomes more intuitive and tailored to your needs. Whether you're on the go or have your hands full, your smartphone makes your life easier every step of the way.
