Telesin Allin box triple-channel charger + 3 batteries for GoPro Hero 12 / 11 / 10 / 9 (yellow)

Telesin Allin box 3-channel charger + 3 batteries for GoPro Hero 12 / 11 / 10 / 9 (yellow)

Specifically designed for GoPro Hero 9, 10, 11 and 12 series cameras, the TELESIN Allin Box combines the functions of charging, storing and reading memory cards. It comes with three high-capacity rechargeable batteries, which offer longer run time compared to the original batteries, providing your camera with unlimited power!

Functionality and fast charging

The Allin Box charger allows you to charge three batteries at the same time, which take just 2 hours to fully charge. This is ideal for those working with their camera in the field. The product also acts as a TF memory card reader, with a maximum read speed of 20 Mbps, making it easy to manage recorded footage.

Protection and durability

The Allin Box is IP54 waterproof certified. As a result, it will perform well in harsh weather conditions and won't be harmed by accidental splashes. The case of the charger is made of fire-resistant PC, and the protective silicone casing further ensures the safety and durability of the product.

Powerful rechargeable batteries

The included fast-charging 1750 mAh batteries offer a higher capacity than the standard GoPro-branded ones, which translates into longer camera runtime - up to 112 minutes of recording on a single charge, depending on the mode. They are fully compatible with GoPro Hero 9/10/11/12 models.

Included
TELESIN Allin Box three-channel charger x 1 1750 mAh rechargeable battery for GoPro Hero 9/10/11/12 x 3 USB-C 3.0 cable x 1

Charger
Manufacturer: Telesin Manufacturer code: N5 Dual Input: Micro USB 5V 2A Output voltage: 4.4V 800mA Material: Fireproof
PC Weight: 245g Charging time: Full charge of three batteries in 2 hours Cable: USB-C 3.0

Rechargeable battery
Material: Lithium battery Weight: 33g Charging voltage: 4.40V Nominal capacity: 1750 mAh
