Charger USB-C+USB-A 20W Essager GaN (black)

The Essager GaN USB-C+USB-A 20W EU Charger is a device that combines modern Gallium Nitride (GaN) technology with an intelligent integrated circuit, providing fast, safe, and efficient device charging. Its exceptionally compact dimensions, sturdy construction, and versatile safety features make it an indispensable accessory.

Intelligent Integrated Circuit

The Essager Charger is equipped with an intelligent integrated circuit that ensures optimal charging for connected devices. This circuit protects against overloads, ensuring user safety. In case of overload, it immediately cuts off the current, minimizing the risk of damage to both the charger and the connected device.

Advanced Safety Features

Safety is paramount, and Essager knows it. This charger offers comprehensive protection against surges, short circuits, and overvoltages, providing peace of mind during device charging. Thanks to these safety features, the risk of failures is significantly minimized.

Gallium Nitride (GaN) Technology

Utilizing Gallium Nitride (GaN) in the Essager charger allows for more efficient energy conversion, reducing heat losses and enabling faster charging. This technology not only increases efficiency but also allows for a compact device design.

20W Power for Fast Charging

With 20W of power, the Essager Charger provides fast charging for a wide range of devices, from smartphones to tablets. Support for QC2.0, QC3.0, AFC, FCP, SCP, iP 2.4A, PD2.0, PD3.0 protocols ensures compatibility with the latest devices and their rapid charging.

Durable Construction and Compatibility

The Essager Charger features a durable housing made of ABS+PC material, ensuring its longevity and resistance to everyday use. With both USB-C and USB-A ports, it is incredibly versatile, allowing for the charging of various devices. Its compact dimensions (70.04 x 35.24 x 32.01mm) make it perfect for travel.

Brand Essager

Color Black

Power20W

Connectors USB-C, USB-A

Dimensions70.04 x 35.24 x 32.01mm

Material ABS+PC

Input 100-240V~, 50/60Hz, 0.5A

USB-C Output 5V-3A, 9V-2.22A, 12V-1.67A

USB-A Output5V-3A, 9V-2A, 12V-1.5A

Supported Protocols: QC2.0, QC3.0, AFC, FCP, SCP, iP 2.4A, PD2.0, PD3.0

Preço:

€ 6.00

Acessórios para telemóveis, Carregadores, mains chargers
