BlitzWolf BW-VS4 120" projection screen.

Ref: 5906168436826

BlitzWolf BW-VS4 120" projection screen.

The BlitzWolf BW-VS4 120" screen is a unique solution for home theater enthusiasts, graphics professionals and gamers who demand the highest image quality. With innovative technologies such as 4K Ultra HD resolution and a wide 160° viewing angle, the BW-VS4 screen guarantees an amazing visual experience. Its easy installation and elegant design make it a perfect fit in any interior, while offering advanced features that will meet the expectations of even the most demanding users.

### Easy installation

Installation of the BlitzWolf BW-VS4 screen is simple and quick. It can be easily attached to the wall with pins or double-sided adhesive tape, allowing you to start using it quickly without the need for specialists.

### Amazing image quality

With a large 120-inch projection area and support for 4K Ultra HD resolution, the BW-VS4 screen offers a crystal clear image that draws you into every scene. High brightness and a special optical coating ensure excellent visibility regardless of lighting conditions.

### Ambient light reduction

The BlitzWolf BW-VS4 screen is equipped with a unique optical structure that reduces 93% of ambient light. With a prismatic TPU layer

and a transparent PET layer, the screen effectively absorbs light, minimizing visual interference and providing clear images even in bright rooms.

#### Realistic colors and wide viewing angle

Real color restoration technology makes images on the BW-VS4 screen extremely realistic and vibrant. The 160° wide viewing angle allows you to enjoy excellent image quality from anywhere in the room, which is ideal when watching movies with family and friends.

#### Perfectly compatible with ultra-short-throw projectors

The BW-VS4 screen is optimized to work with ultra-short-throw projectors, providing significantly better brightness, contrast and color fidelity compared to traditional projection screens. This means you can enjoy exceptional picture quality in your home theater, getting an immersive visual experience that was previously only available in professional settings.

Manufacturer BlitzWolf Model BW-VS4 Projection ratio 16:9 Screen size 2656 x 1494 mm Screen weight 11,1 kg Viewing angle 160° Resistance to ambient light 92%
