BlitzWolf BM-ES1 PLUS monitor lamp

The BlitzMax BM-ES1 PLUS lamp is a practical lighting solution for your desk. It combines modern design, high functionality and comfort, offering a wide range of lighting settings, making it an ideal addition to any workstation, taking care of your eye health and work efficiency.

Personalized lighting

The BlitzMax BM-ES1 PLUS offers five different color temperature modes (from 3000K to 6000K) and five brightness levels. With infinite adjustment, a long press is all it takes to adjust the light intensity to suit your needs. Despite a maximum light output of 700 lumens, the lamp consumes only 4.5 watts of power, making it energy-efficient and efficient.

Eliminate glare and flicker

The BlitzMax BM-ES1 PLUS lamp is designed with an innovative asymmetrical optical pattern that eliminates glare and flicker on the screen. Equipped with 66 high-quality LEDs, the lamp creates a soft, even glow, focusing illumination on the desk and keyboard. This effectively reduces eye fatigue and promotes visual health, which is especially important during prolonged computer work.

Simple control and memory function

The lamp is equipped with a touch-sensitive switch and a memory function that remembers the last lighting settings. This means you don't have to adjust the brightness every time you turn on the lamp. The touch switch makes it easy to control brightness levels, eliminating the need to search for a traditional wired controller in the dark.

Fits a wide range of monitors

Thanks to its adjustable clip, the BlitzMax BM-ES1 PLUS lamp can be securely attached to monitors from 0.1 to 2.3 inches thick. In addition, the lamp allows you to adjust the angle of illumination by about 35° for optimal illumination of your workspace. It is ideal for both flat and curved screens between 0.4 and 2.4 inches thick. The suspension mechanism of the BlitzMax BM-ES1 PLUS lamp saves more than 95% of desk space, allowing better organization of the workspace. The adjustable bracket and illumination angle allow mounting on various types of monitors, making the lamp extremely versatile.
