

Flextail MAX SHOWER Portable Outdoor Shower

Flextail MAX SHOWER Portable Outdoor Shower

Ref: 6975755962115

Flextail Max Shower Portable Shower

The Flextail Max Shower Portable Shower is the perfect solution for those who value convenience and mobility. It is ideal for camping, traveling or emergency situations. It includes a shower head, water pump and rechargeable battery, making it a complete shower system, ready for use in any conditions.

Water flow modes

The Flextail Max Shower offers two water flow modes that can be adjusted to suit your needs. The low-flow mode delivers 6-8 liters per minute to save water. The high flow mode, on the other hand, delivers 9-10 liters per minute, which will work well when you need a quick and intense shower.

Long life

The built-in 18.5Wh rechargeable battery guarantees long operation. In low-flow mode, the shower runs for as long as 110 minutes, while in high-flow mode it runs for 70 minutes. The battery is charged via the included USB-C cable, allowing easy charging anywhere.

Ease of use

Connecting and disconnecting the shower head and water pump is extremely easy, allowing you to quickly and effortlessly prepare the

shower for use. In addition, the water pump is equipped with a water protection function - it automatically shuts off if it doesn't detect water for 20 seconds, preventing damage to the device.

Included

MAX SHOWER (built-in rechargeable battery) type C cable manual storage bag
