

Sports camera handlebar mount PGYTECH (P-GM-172)

Sports camera handlebar mount PGYTECH (P-GM-172)

Ref: 6976100485099

PGYTECH handlebar mount (P-GM-172)

Record your next motorcycle trip from an unusual perspective. The U-bolt mount by PGYTECH will allow you to stably attach your camera to your vehicle, and thanks to its multiple adjustment options, it will make filming from different angles easier. The accessory is distinguished by its wide compatibility and is very easy to install, and a durable aluminum alloy is used to make it.

Fast and stable installation

The P-GM-172 is equipped with a robust U-bolt mount, which allows reliable, stable mounting of the camera in the desired location on the motorcycle. The kit also includes two additional shock blocks, which allow you to mount the accessory on tubes of different diameters (12.7-23 mm and 23-33 mm). What's more, the product is made of durable aluminum alloy, making it very strong and wear-resistant.

Adjustability

The mount rotates 360° and allows you to adjust the tilt angle within 180°. You can also lock it in the desired position. This way you can easily get the perspective you want and record lots of great shots!

Wide compatibility

The accessory is equipped with a ¼-inch screw, so it is compatible with many models of sports cameras. You can also attach a selfie stick

or phone holder to it. Mounting the selected devices is very easy and fast - you'll be ready to record in no time!
