

Gens Ace IMARS mini G-Tech USB-C 2-4S 60W RC Battery Charger

Ref: 6928493308356

Gens Ace IMARS mini G-Tech USB-C 2-4S 60W RC Battery Charger

Gens Ace IMARS mini G-Tech USB-C 2-4S 60W RC charger

The Gens Ace IMARS mini G-Tech is a smart charger designed for Gens ace G-Tech batteries, also compatible with custom batteries. As the first device in the Gens ace G-Tech Smart Eco series, it automatically identifies the type, voltage and manufacturer's recommended charging current of the connected G-Tech product, so it starts charging within 5 seconds. For non-standard batteries, it is necessary to manually set the type and select the appropriate mode. It supports LiPo, LiHV, LiFe (2-4S) and NiMH (2-12S) batteries, and its compact size and light weight make it easy to store and transport.

Manufacturer Gens Ace Model GEA60WE2 Maximum charging power 60W Charging current 1-5A, maximum 5A (automatic adjustment) Storage power 3W (discharging), 60W (charging) Input voltage 5-20V Maximum input current DC 3A Balancing current 0.4A/target x 2 Input port QC/PD/BC1.2/USB-C V1.4/SDP/CDP/DCP/Apple 5V/2.4AA Abnormal voltage alarm Yes Supported battery types Lipo/LiHv/LiFe (2~4S), NiMH (2-12S) Operating temperature 0°C~40°C Storage temperature -20°C~60°C Dimensions 85 x 55 x 21 mm Net weight Approximately 64g
