Haylou Solar Pro smartwatch (silver).

Do you value convenience, elegant design and top-notch functionality? Haylou Solar Pro smartwatch is just for you! It combines the most essential features for the user, offering a lot of interesting possibilities and comfort in daily use, and its durable design makes it an ideal choice for people who love to spend time actively.

High image quality

The Haylou Solar Pro smartwatch features a 1.43-inch AMOLED screen with a resolution of 466 x 466 and a refresh rate of 60Hz. This rugged and powerful display provides amazing image quality, ideal for viewing any content. The built-in rotary buttons offer a wide range of interesting options and menus that can be customized to your individual needs. In addition, thanks to its advanced Bluetooth 2-in-1 chip, the smartwatch provides a stable and durable connection. Its processing ability is up to 80% faster, and the 2.5D GPU allows you to set dynamic and smooth wallpapers on the watch, making it even more enjoyable to use.

For the sake of safety

The smartwatch features high resistance to all kinds of damage and hindrances, including extreme temperatures (from -40 to 55 degrees), humidity (as much as 95%), shocks, drops, ice and water resistance of 2ATM. It's the perfect device for those who love outdoor activities such as running or hiking.

High-quality connectivity and safety features

The Haylou Solar Pro allows you to make phone calls via Bluetooth, and the built-in audio recording chip guarantees HiFi-level sound quality - from deep bass to clear treble. The SOS function provides automatic emergency calls, keeping you safe. It is also very intuitive to use - just click the top-most button on the watch three times to activate it. In addition, the watch supports a voice assistant option that responds to commands such as answering, rejecting and making phone calls, setting an alarm, checking the weather and time, and much more. This makes it easier to manage daily tasks hands-free.

Around-the-clock health monitoring

The smartwatch offers comprehensive health monitoring throughout the day, including heart rate, SpO2 and blood pressure measurement, sleep quality monitoring, a mode designed specifically for women, and is even able to analyze your emotions. It also provides detailed weather information, allows you to manage your music, notifies you of SMS messages, has a calculator, alarm clock and stopwatch function, and much more.

Long battery life

Haylou Solar Pro features a very long battery life, lasting up to 20 days in standby mode and up to 7 days in standard mode during daily use. It's a reliable companion for every day and for longer trips, offering versatile features and exceptional durability.

Stylish and functional design

The smartwatch's lightweight and stylish design makes it comfortable to wear even during extreme exercise. It has more than 100 different exercise modes and more than 150 themes that can be personalized and downloaded online, customizing the watch to fit your lifestyle. The Haylou Solar Pro smartwatch is the perfect combination of modern technology, elegance and functionality, meeting the expectations of the most demanding users.
