

### Portable compressor, pump HOTO QWCQB002 (3x 2500 mAh, 150 PS

Ref: 6974370802219

Portable compressor, pump HOTO QWCQB002 (3x 2500 mAh, 150 PSI, 350 L, 12V)

Portable compressor, pump HOTO QWCQB002 (3x 2500 mAh, 150 PSI, 350 L, 12V).

HOTO QWCQB002 portable compressor is an indispensable device for anyone who needs a fast and efficient solution for pumping various items. With its compact design and powerful performance, it is ideal for use on the go, on camping trips, family outings or everyday emergencies. Performance and functionality in one device make the HOTO QWCQB002 a reliable companion in any situation.

#### Powerful power and high pressure

Equipped with three rechargeable batteries of 2500 mAh each, the compressor provides powerful operation and long life on a single charge. The maximum pressure of 150 PSI makes it easy and fast to inflate car and bicycle tires, as well as sports balls and inflatable mattresses. The compressor's ability to generate pressure at 350 liters per minute allows it to pump even large items in a short period of time.

#### Universal application

The HOTO QWCQB002 compressor comes with a set of different tips to suit a wide range of applications. Whether you need to inflate car tires, bicycle tires, inflatable mattresses, sports balls or other accessories, this versatile tool provides versatility and ease of use. In addition, the device operates on 12V, allowing you to plug it into your car's cigarette lighter socket, which is extremely useful when traveling.

#### Safety and durability

HOTO QWCQB002 was designed with safety and durability in mind. A high-quality housing protects the compressor from mechanical damage, and advanced features such as automatic shutdown when the target pressure is reached protect both the user and the device from overloading. This reliable tool is ready to operate in all conditions, providing peace of mind and safety.

#### Intuitive operation and convenience

The HOTO QWCQB002 compressor is extremely easy to use. The built-in LCD display allows precise pressure monitoring, and the intuitive interface makes using the device simple even for novice users. The compact design and included carrying bag make the compressor easy to take with you wherever you may need it.

Name: Portable compressor, pump HOTO QWCQB002 (3x 2500 mAh, 150 PSI, 350 L, 12V) Manufacturer: HOTO Model: QWCQB002 Dimensions: 195x75x15mm Weight: 1,635g (including bellows) Pumping pressure 0-10.3bar/0-150psi Charging parameters 5V□2A, 9V□2A Car cigarette lighter input 12V□10A max. Battery type Lithium-ion rechargeable battery Rated voltage 10.8V Battery capacity 2500 mAh Charging time Approximately 210 minutes Operating temperature -10°C~45°C Charging temperature 5°C~40°C Storage temperature -10°C~45°C Bellows length Approximately 1m Length of US air tube Approximately 0.7 m Lighter cable length Approximately 3 m Noise generated during operation Approximately 85dB(A) at a distance of one meter
